

Cylindrical Stainless Steel Cartridge – USC Series

Re-usable, high temperature, high pressure application

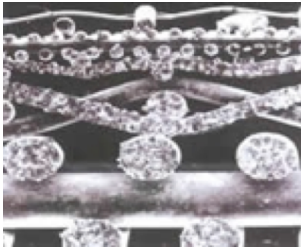

Cylindrical Stainless Steel Filter Cartridge

Our Cylinder Filter Cartridges are made with Five-Layers Sintered Wire Cloth, with filter rating ranging from 0.2micron to 200micron.

Five-Layer Sintered stainless steel wire mesh are sintered together in vacuum to give you a very fine micron filtering, good permeability, high strength, easy to clean, good corrosion resistance, durable at work and no immigration of materials.

Specification

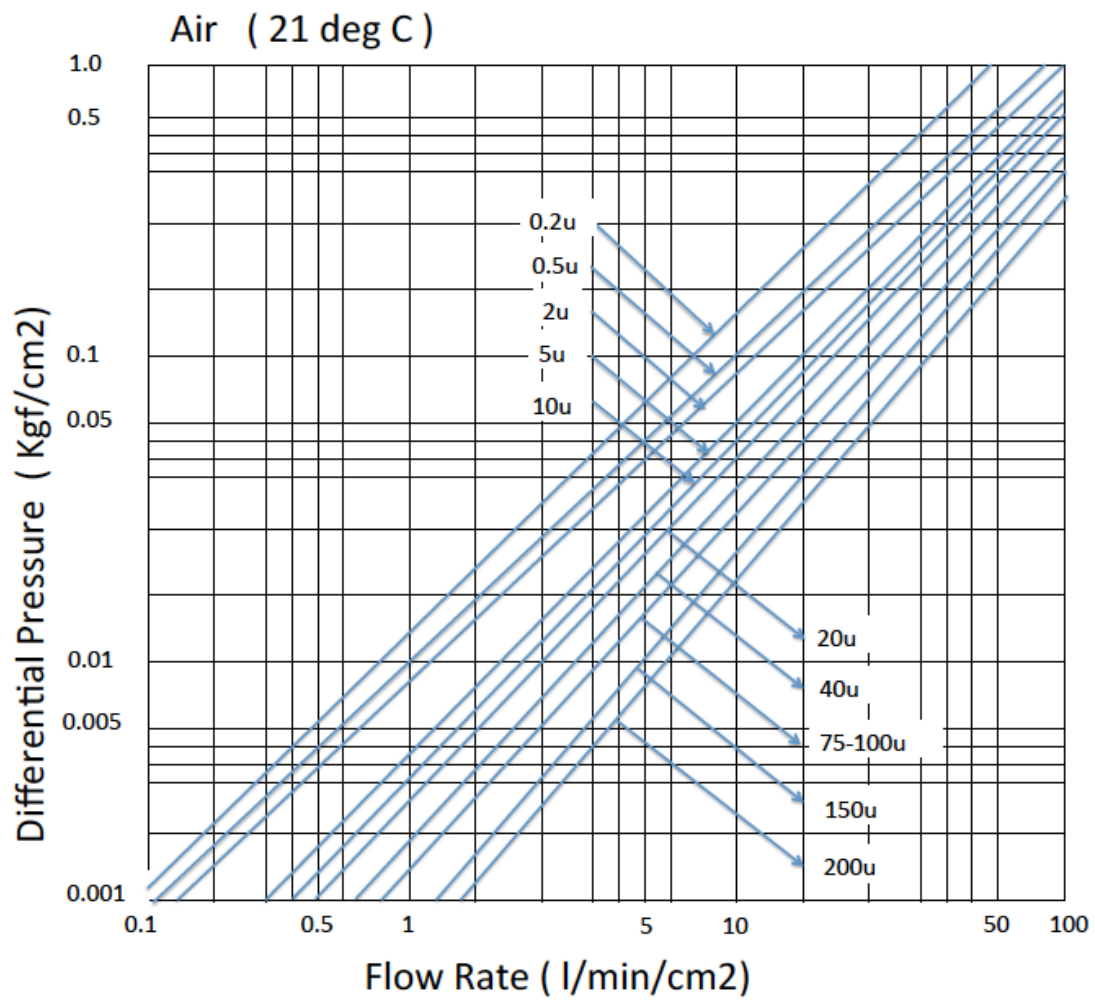

Length – 9.75”, 10”, 20”, 30” 40”

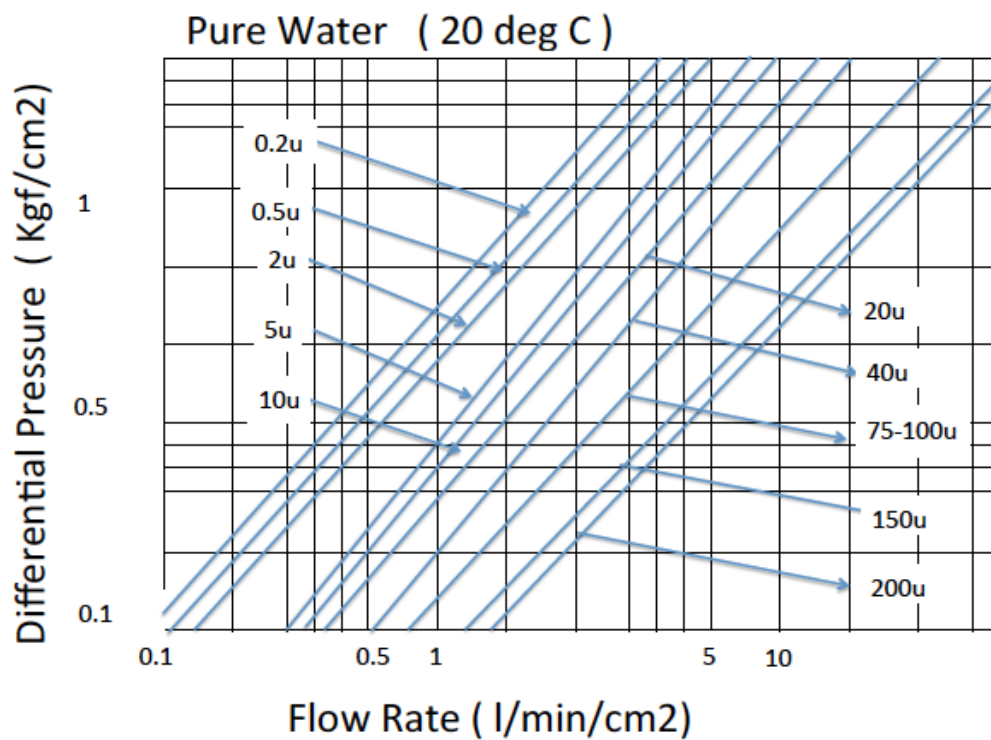

Material used :
SS304, SS316, SS316L

Micron rating available :
0.2 – 100 micron

Connection Type
DOE, SOE (222/226), Thread

Performance Chart

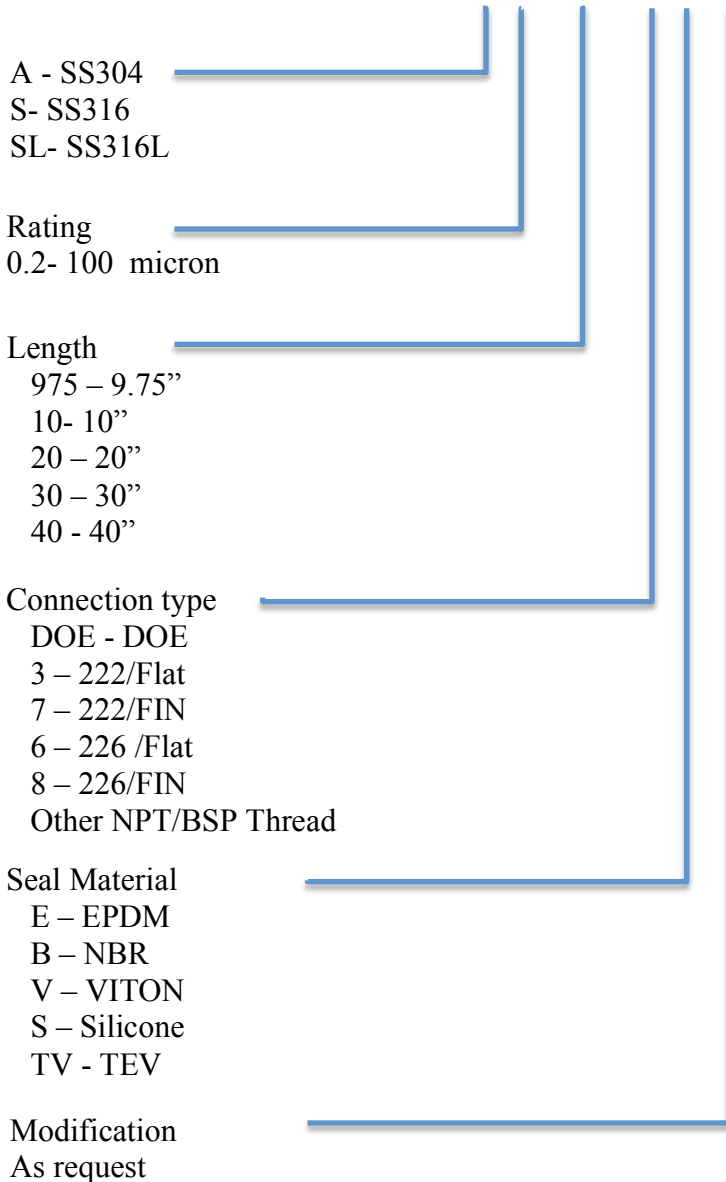

Applications

Chemical Industry
 Oil & Gas / Petro-Chemical Industry
 Water Application
 Steam Filtration
 Food & Beverage

How to order

Filter Cartridge Code USC- S- 1 – 40 – 3E- M
